

OneControl Hotspot plus telematics

User onboarding Journey

Obtain your claim
code from the router
or from the owner tag

Go to the OneControl
Hotspot community
page to login or register
for an account

Social login can be used, as well as using email for login. The user will click on the "create account" button to register and create a OneControl account.

Registration asks for
Name, email address,
and password.

The screenshot shows a web browser window with the URL `idsdev-lippert.cs47.force.com/IoTCommunity/CMT_OneControlHotspotR...`. The page features a blue sky and mountain background. The logo "ONEControl HOTSPOT" is at the top. Below it, there are five input fields for registration: "First Name", "Last Name", "Email Address", "Password", and "Confirm Password". The "Password" field has a note: "Password must be at least 8 characters long, contain letters, a number and a special character (!#\$%&'/*=? ^_+~{}|~).".

ONEControl HOTSPOT

* First Name

* Last Name

* Email Address

* Password

Password must be at least 8 characters long, contain letters, a number and a special character (!#\$%&'/*=? ^_+~{}|~).

* Confirm Password

We ask for vehicle make, model, year, floorplan, country and state

The image shows a web browser window with a registration form. The browser's address bar displays the URL `zipit-lippert.cs93.force.com/loTCommunity/CommunityPageRegistration`. The page title is "Register". The form is overlaid on a background image of a white motorhome with a family (a man, a woman, and a child) standing outside. The form consists of several input fields and dropdown menus. At the top, a password requirement message states: "Password must be at least 8 characters long, contain letters, a number and a special character(.!@#\$%^&*~?^_+{}|~).". Below this is a password field with masked characters. The form then includes five dropdown menus labeled "Select Vehicle Make", "Select Vehicle Model", "Select Year", "Select Floor Plan", and "Select Country". These are followed by a text field containing the number "19571", another "Select Country" dropdown, and a "Select State" dropdown. The form is styled with white input fields and light blue dropdown menus, set against a dark background.

Select Year

Select Floor Plan

19571

Select Country

Select State

City, street address, phone number and vin number are asked for. Terms and conditions have implicit consent.

The screenshot shows a web browser window with the following elements:

- Browser Tabs:** Home, Lippert, Register.
- Address Bar:** idsdev-lippert.cs47.force.com/IoTCommunity/CMT_OneControlHotspotR...
- Form Fields:**
 - Select Country (dropdown menu)
 - Select State (dropdown menu)
 - City (text input)
 - Street Address (text input)
 - Phone: (555) 555 - 5555 (text input)
 - VIN (text input)
- Terms and Conditions:** A checkbox is checked next to the text "I agree to the LCI Terms and Conditions, Privacy Notice and End User License Agreement".
- Buttons:** "Cancel" (yellow outline) and "Register" (solid yellow).
- Background:** A photograph of a white Lippert van parked on a paved road next to a forested area.

After registration, the user is taken to the OneControl Community home page.

Choose the "Data Plans" tab to continue onboarding.

The onboarding for a router begins.

After clicking on the "claim your device" button, a claim code is added

Available data plans
are now shown to the
user

The customer chooses a data plan with both hotspot and telematics

An account is created for the telematics portion of the plan that is managed by Lippert.

The screenshot displays a web browser window with the URL `lippert.stage.zipitls.com/#/add-device`. The browser's address bar shows the site name and a search icon. The page features a dark theme with a navigation bar at the top containing links for Home, Devices, and Billing History, along with a user profile icon for John Doe Jr. Below the navigation bar, a progress bar indicates the current step: 3. Billing Information, with other steps including 1. Enter Serial, 2. Pick Subscription, 4. Confirm, 5. Change Password, and 6. Power Cycle.

The main content area is divided into two columns. The left column, titled 'Checkout', contains three sections: Personal Details, Shipping Details, and Payment Details. The right column, titled 'Overview', provides a summary of the current step.

Checkout Section:

- Personal Details:** Includes fields for Name, Email, and Phone.
- Shipping Details:** Includes fields for Address Line 1, Address Line 2, City, State, and Postal Code.
- Payment Details:** Includes a field for Payment Method (Card number) and a field for MM / YY CVC.

Overview Section:

- Claiming Device:** Displays the device ID 5000000000000027 and the device name Connect Anywhere Router.
- Subscription:** Displays the selected plan, 5gb Plan + Telematics, with a monthly cost of \$42.00 / month.
- Buttons:** A Verify Payment button and a Cancel button are located at the bottom of the Overview section.

The footer of the page indicates it is Powered By Zipit, Version 1.11.3.

Credit card information
for the telematics
portion of the plan is
added and verified by
Lippert

The screenshot displays a web browser window with the URL `lippert.stage.zipitls.com/#/add-device`. The page is titled "3. Billing Information" and is part of a multi-step checkout process. The main form is divided into two columns: "Checkout" on the left and "Overview" on the right.

Checkout Section:

- Personal Details:** Includes fields for Name (Joh Doe Jr), Email (jdoe-lci-connectanywhere@m), and Phone (9185551235).
- Shipping Details:** Includes fields for Address Line 1 (1235 Main St), Address Line 2, City (Midland), State (TX), and Postal Code (19571).
- Payment Details:** Includes a Payment Method field showing a Visa card with the number 4242 4242 4242 4242, expiration date 08 / 42, and postal code 951 19571.

Overview Section:

- Claiming Device:** Shows a device ID of 5000000000000027 and the device name "Connect Anywhere Router".
- Subscription:** Shows the selected plan as "5gb Plan + Telematics" with a monthly cost of \$42.00.
- Buttons:** A "Verify Payment" button is present, along with a "Cancel" link.

The footer of the page indicates it is "Powered By Zipit" with version 1.11.3.

Sign up for telematics
portion of the plan is
confirmed

The screenshot shows a web browser window with the URL `lippert.stage.zipitls.com/#/add-device`. The browser's address bar and tabs are visible at the top. The page has a dark theme with a navigation bar at the top containing links for Home, Devices, and Billing History. A progress bar at the top of the main content area shows six steps: 1. Enter Serial, 2. Pick Subscription, 3. Billing Information, 4. Confirm (highlighted), 5. Change Password, and 6. Power Cycle. The main content area is a dark gray box with the title 'Confirmation'. It contains three sections: 'Plan for Device' with a plan ID '5000000000000027' and name 'Connect Anywhere Router'; 'Subscription' with '5gb Plan + Telematics' at '\$42.00 / month'; and 'Billed to' with the name 'Joh Doe Jr', email 'jdoe-lci-connectanywhere@mailinator.com', and a Visa card ending in '4242' expiring '8/2042'. At the bottom of the confirmation box are two buttons: 'Confirm Subscription' and 'Cancel'. The footer of the page says 'Powered By Zipit' with a logo and 'Version 1.11.3'.

Version 1.11.3

Telematics portion of
the plan is added

The router is power cycled to prepare for first usage

The router is now usable for telematics and the account reflects current telematics plan and account information. The user will now set up wifi portion of their plan by clicking the "next" button

We redirect the user to the Zipit Portal to set up their wifi account with LCI. The user will click on the "Get Started" button to register.

Need Zipit Portal screenshot with a “Get Started” button (similar to the ATT screenshot).

For this user journey, the user needs to set up a new LCI account using the Zip it Portal. The user clicks on the "Get your pass" button to set up their account

Need LCI/Zipit Portal screenshot with a "Get your pass" button (similar to the ATT screenshot).

The user will input the
router details and
register the wifi hotspot
with LCI

Need LCI/Zipit Screen shot for registering

The user will finish
registration with LCI

The user will now log
into their router and
will be able to use wifi
