DSCF v2 and iDSCF Similarity Justification

To whom it may concern

The Sure Petcare DSCF v2 is produced as a downgraded version of the pre existing iDSCF design. The product is functionally identical to the existing iDSCF save for the deletion of the 802.15.4 2.4 GHz transceiver function removing all networking capability.

The DSCF v2 is mechanically identical to the iDSCF and uses identical bare PCBs but with the components for the 2.4 GHz transceiver and for decoding TROVAN Microchips deleted.

The RFID performance of the unit is not affected by these changes.

Yours faithfully,

Dr. David Hallas, Managing Director
