Main label description

This is the main rating label for the iHB v2 and will include all required compliance information. The label is adhesive backed polyester film and resistant to both peel and solvent attack as required by EN62368-1.

In addition a small secondary label is provided on base adjacent to the DC Jack defining the required DC voltage and current requirements for the unit

Main label image and sizes.

Note production units will have the correct Model reference of “iHB v2” rather than simply iHB
