Solder Board-Component View 14	 A close-up photograph of a small, yellow, rectangular antenna component. The component has a gold-colored base and a yellow top with printed text: "RA-01 94V-0", "X7190319", "61C00371", and "AT0090371". It is placed on a blue textured surface. A black ruler with white markings is positioned below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 An internal view of a device showing the antenna components. Three antennas are labeled with red boxes and lines pointing to them: "WIFI Antenna 1" (top left), "Bluetooth Antenna" (top right), and "WIFI Antenna 0" (bottom left). The antennas are connected to a green printed circuit board (PCB) via black cables. The PCB is mounted on a silver metal chassis. Other components visible include a black heat sink, various capacitors, and a black battery.
