

Solder Board-Component View 12	 A photograph of a black printed circuit board (PCB) populated with various electronic components. The board is oriented vertically and placed on a blue textured surface. A black ruler with white markings is positioned horizontally at the top and bottom of the board for scale. The components include several integrated circuits, resistors, capacitors, and connectors. Labels such as "HOT", "COLD", "LAMP POSITION", and "REV:1.1" are visible on the board. The board is populated with components on both sides, with the top side being the primary focus of this view.
Solder Board-Component View 13	 A photograph of the same black printed circuit board (PCB) from a different perspective, showing the bottom side. The board is oriented vertically and placed on a blue textured surface. A black ruler with white markings is positioned horizontally at the top and bottom of the board for scale. The components visible on this side include various integrated circuits, resistors, capacitors, and connectors. Labels such as "HOT", "COLD", "LAMP POSITION", and "REV:1.1" are visible on the board. The board is populated with components on both sides, with the bottom side being the primary focus of this view.

Solder Board-Component View 14	 A photograph of a green printed circuit board (PCB) with various electronic components. A large black rectangular component is mounted in the center. The board is populated with numerous smaller components, including resistors, capacitors, and integrated circuits. A silver USB-A connector is visible on the left side. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
Solder Board-Component View 15	 A photograph of the same green PCB from a different angle. This view shows the underside of the board, revealing the solder joints and the components mounted on the reverse side. A large black component is also visible here. The board is placed on the same blue textured surface next to the same black ruler.

Solder Board-Component View 16	 A photograph of a green printed circuit board (PCB) with various electronic components and solder joints. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom, providing a scale for the board's dimensions.
Antenna View	 A photograph showing the internal components of a device, specifically the antenna section. Two red lines point from labels to specific components. The label "WIFI Antenna 1" points to a small component on the left. The label "WIFI Antenna 2" points to a component on the right. The background shows various electronic components, wires, and a metal chassis.
