Label Justification Letter**

Dear Sir/Madame,

Because the device is so small that it is not practicable to place the statement specified under 15.19 statement request, the information required by this paragraph shall be placed in a prominent location in the User's Manual.

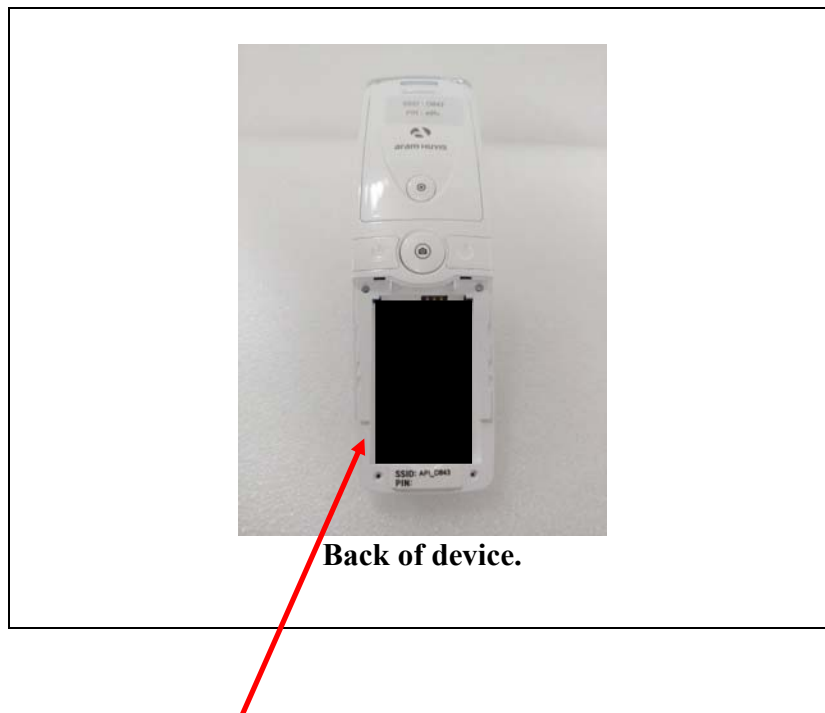

- The available label area on the device is limited because it is relatively small and has many contoured surfaces, keypads, LCD display, and other connectors.
- The batteries are designed for easy removal and the label will be visible whenever the batteries are removed for replacement.
- The label will be readily visible at the time of purchase because the device will be marketed without the battery installed.
- FCC ID will be printed on the gift box which will be readily visible to the purchaser at the time of purchase.

Sincerely,

A handwritten signature in black ink, appearing to read 'Changwon Kim', is written over a horizontal line.
