FEDERAL COMMUNICATIONS COMMISSION

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Dear Sir or Madam,

The Mobile Radio with FCC ID: XYH-BRM300DU was designed to operate in the frequency bands 400-470MHz.

To aid equipment authorization in other countries which accept the United States FCC Grant for certification, RCA Communications Systems is requesting that the FCC lists the frequencies 400-470MHz, under FCC Rules Parts 22 and 90 on the FCC Grant. RCA Communications Systems attests that the repeater will not be marketed to USA users with the frequency band which is not allowed by the rule part 22 and 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Frequency Range (MHz)	FCC Rule Part
400-406 MHz	For Federal
406.1-450 MHz	FCC Part 90
450-454 MHz	FCC Part 90
454-455MHz	FCC Part 22
456-460MHz	FCC Part 22/ FCC Part 90
460-462.5375MHz	FCC Part 90
462.7375-467.5375MHz	FCC Part 90
467.7357-470MHz	FCC Part 90

Sincerely,

A handwritten signature in black ink, appearing to read 'Veronica Garcia', written in a cursive style.

Veronica Garcia
Manager
