FCC Class II Permissive Change Request Letter

Date: Jan. 25, 2016

To FCC:

RE: FCC Permissive II Change Request for Company: Lightcomm Technology Co.,Ltd.
FCC ID: Y34-UITBSM

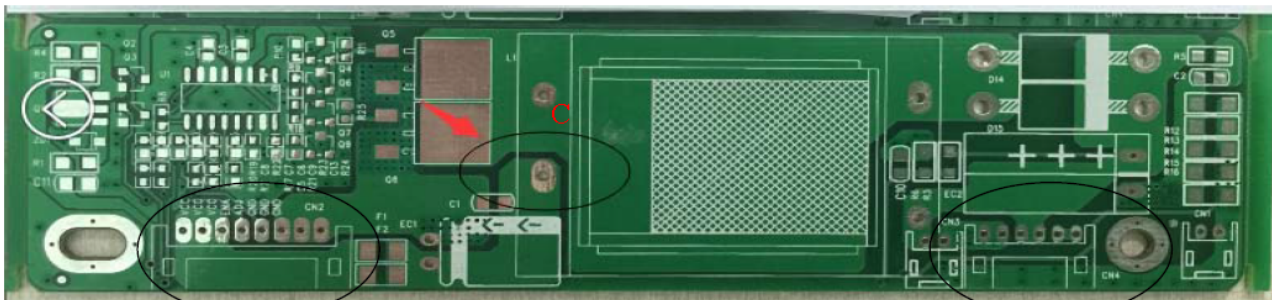

We are submitting an application for a class II permissive change to the FCC approval of the Company name: Outform Ltd, product description: MID (FCC: Y34-UITBSM, Original Grant Date: Nov. 04, 2015). The transmitter module itself has not changed. The LED drives board has changed version number from V1.1 to V1.3, here are the changes:

A: add CN2A/PH2.0 * 4 pin DC input socket

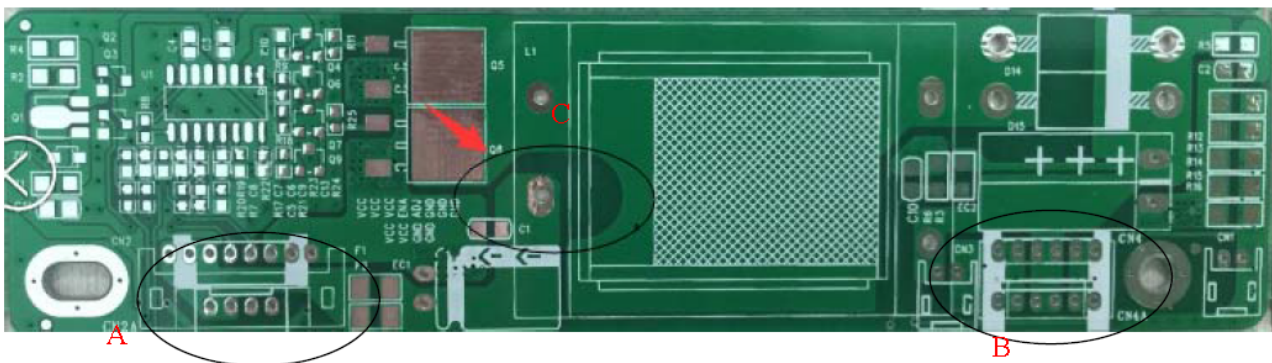

B: add CN4A/PH2.0 * 6 pin backlit output socket

C: Increases the distance L1 inductance between PIN4 feet square copper foil and copper foil, in order to prevent the L1 - PIN4 short-circuit

Original:
