RE: FCC: Y3J-DCCI-BT
IC: 9409A-DCCIBT

To Whom It May Concern:

David Clark Company Inc., hereby declares that all production units of our Model DC ONE-X Aviation Communications Headset have incorporated the modifications defined in Test Report 511-15 Issued 2/12/16, on page 3 in section 2.8 titled EMC Modifications. Specifically we have incorporated the pi filter in series with the Bluetooth antenna, (ANT1):

- Shunt 1.2 pF (C150)
- Series 3.3 nH (L14)
- Shunt 1.2 pF (C149)

This is shown on Page 3 (of 10) on our In-Line PCBA Schematic, 43000G-17EL-MAS Rev D. The specific portion of that circuit is pasted below:

Sincerely:

David J. Truesdell
Director of Engineering
