

INSTRUCTIONS FOR OPERATION

SETTING THE OPERATING CONTROLS

1. This device which one of black lines series with AC 120V power supply. Now, we take 60Hz power supply to afford power supply of transmitter when it trough rectify. So, there is no troubles with change batteries forever.
2. Store the controller away from excess heat or humidity .
3. Transmission controls speed and light of fan through 26 bit encoding connection signal, 10 buttons and 10sets switch .Integrated circuits through theRF transmission,Carrier is composed of quartzoscillator.

4. Operation buttons on the panel of transmitter .

6key – For fan speed 6

5key – For fan speed 5

4 key – For fan speed 4

3key – For fan speed 3

2key – For fan speed 2

1key – For fan speed 1

key – For fan speed off .

key – Fan reverse .

key – For light brightness and ON/OFF control .

5. Start the fan :

Press the selected speed button to run the fan at the desired .

By press the speed up-down button to select the needed speed, and though the LED light to see the fan speed.

6. Turn off the fan :

Press the OFF button .

7. Light control :

Turn the light on or off by only touching the LIGHT CONTROL button .

Keep pressing the button in excess of 0.7 second it becomes a dimmer , the light varies cyclically in 0.8 second .

One of the important feature of this control is AUTO-RESUME . After power on , it allows the light return to where it was off .

8. Power switch

Turn off the power for Fan and Light

GENERAL INFORMATION :

This REMOTE controller is designed to separately control your ceiling fan speed and light brightness .

INSTRUCTIONS FOR INSTALLATION AND OPERATION OF FAN SPEED CONTROLLER

A. Setting the code on your new transmitter .

1. Slide code switches to your choice of UP and DOWN position .
Factory setting is all UP . Do not use this setting .
Use ball point pen or small screwdriver .
Slide firmly up or down .

B. Setting the code on your new Receiver unit .

1. Slide code switches to the same positions as set on your transmitter .
They must be set to same positions to work .
2. Make sure the code switches are on the left positions .

NOTICE :

The changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment .

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATIONS IS SUBJECT INTERFERENCE AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESRIED OPERATION.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Caution:

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

L'appareil a été évalué pour répondre aux exigences générales d'exposition RF. L'appareil peut être utilisé dans des conditions d'exposition portables sans restriction.
