Re: Radio Activity S.R.L. FCC ID: Y9M-KA160 and IC: 10484A-KA160

To Whom It May Concern:

We are submitting an application for certification for Permissive Change on behalf of Radio Activity S.R.L. for the product listed above.

This is a request to add emission designators to the certifications that were omitted during the original approvals. There have been no software or hardware changes to the radio.

We are including a test report that contains the test data to support the new emission designators.

Should you have any questions or require any further information, please let us know.

Regards,

A handwritten signature in blue ink, appearing to read "S. Hoffman".

Sharon Hoffman
Agent for
Radio Activity S.R.L.
