

12.2 How voice control works

12.2.1 The main menu

As soon as you start voice control, the main menu appears:

In the main menu you will find a selection of voice commands that you can use directly for the most important functions:

- ▶ Telephone
 - Call a contact
 - Dial a number
- ▶ Navigation
 - Enter an address for route guidance
 - Select a point of interest for route guidance
 - Start route guidance to the home address
 - Select one of the previous destinations for route guidance
 - Cancel the current route guidance session

- ▶ Playing media (audio)
 - Start playback of a song, audiobook or podcast

Notes:

- ▶ For each operating mode there is a separate menu containing further commands (see the section entitled “Opening the menu for an operating mode” (page 65)).
- ▶ If a voice command opens a sub-menu, you can return to the previous menu by saying “Back”.

12.2.2 Saying voice commands

The available voice commands are shown in the display. The device reads out the available options. After that, a beep indicates that the device is ready to accept your voice command.

Note:

When the device reads out the available options, you may interrupt it by tapping  5. The beep sounds immediately, and the device is ready to accept your voice command.

Say the displayed command to select the corresponding function, for instance, “navigate to home” to start route guidance to the stored home address.

Certain commands are combined with names or numbers, e.g. “Call <number>”. Say the displayed command and the desired number or name.

12.2.3 Opening the menu for an operating mode

For each operating mode there is a separate menu containing further commands.

To open the menu for an operating mode,

- ▶ say the corresponding command:
 - “Phone”
 - “Navigation”
 - “Media”

12.2.4 Selecting from a list

If you have various items at your disposal they will be displayed in a list (e.g. various navigation destinations or various music tracks for media playback).

To select the desired item,

- say the number of the corresponding list item, e.g. “Three”.

Note:

To scroll up or down in the list, say “Previous page” or “Next page”.

12.3 Help for voice control

To obtain help with the voice control system,

- say “Help”.
