

DT Research, Inc.

Class II Permissive Change Letter

Date: 2026/7/16

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD

To Whom It May Concern:

The purpose of this letter is to request Class II Permissive Change for:

FCC ID: **YE3600-BE200NG**

Original Grant Date: **05/23/2025**

Pursuant to CFR 2.1043, **DT Research, Inc.** hereby requests a Class II Permissive Change.
The changes filed to this application are:

-Change #1: Additional chassis added, DT Research, model 1: DT556LA / Model 2: DT573LA.
Models differences: The two models differ in screen size and antenna; the rest of the hardware and motherboard design are identical.

-Change #2: Add new antennas which have the same antenna type as original grant, and each antenna gain is lower than the original application. Please refer to the RF report for the detail.

-Change #3: The software security information is kept the same as the module's original application.

-Change #4: According to the WIFI 6E test report submitted in the initial filing, the CBP test is based on the minimum antenna gain -2.59 dBi. In this application, the lowest antenna gain of WIFI 6E band is 1.6dBi, which is not lower than original one, the new CBP testing is not required accordingly.

Thank you for your attention in this matter.

Best Regards,
