Professional Installation Requirement

FCC ID: YFJANT101019

IC: 8706A-ANT101019, HVIN(s): BL-ANT-1010-19G & BL-ANT-1010-19W

TO WHOM IT MAY CONCERN

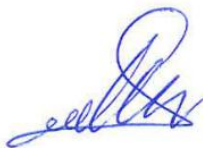

Hereby we certify that EA1 Antenna version is intended for professional installation only. Installation, configuration, and maintenance of the device, including the connection of external antennas equipped with N-type connectors, shall be performed exclusively by trained and qualified technical personnel only.

This device is intended exclusively for professional installation and use in controlled environments such as stadiums, arenas, event venues, broadcast facilities, and similar professional communication systems.

The device may only be used with the antenna types specified in this application. Installation by professional personnel ensures that only approved antennas are selected and installed in accordance with FCC requirements and the manufacturer's instructions.

Professional installation is justified because the equipment is a specialized RF communications product intended for deployment as part of professionally managed wireless systems. Proper deployment requires technical expertise in antenna selection and placement, RF coverage planning, frequency coordination and system integration. The device is not marketed or sold to the general public through retail channels, but rather through authorized distributors, system integrators, and professional users serving the event, broadcast, and venue industries. Accordingly, the equipment is intended for industrial and commercial use only and is not designed for consumer applications.

Sincerely,
Riedel Communications GmbH
