Modular Approval Request

FCC ID: YG2-P120

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	According to the internal photos provided by the applicant after the comparison to determine the module in the RF components are covered with sheet metal to meet the requirements.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	The EUT has buffered data inputs, it is integrated in chip.	
(c) The module must contain power supply regulation on the module	The EUT has its own power supplier regulation , please see the schematic.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo of antennas are shown in the test report.	
(e) The module must demonstrate compliance in a stand-alone configuration	The EUT was tested in a stand-alone configuration via a test kit. Please see section Photographs of Test Configuration in the test report.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes, the module has FCC ID Label permanently affixed, please refer to the module label.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	The EUT is compliant with all applicable FCC rules. Detail instructions for maintaining compliance are given in the Users Manual.	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	The EUT is compliant with all applicable RF exposure requirements. RF Exposure is addressed in the RF exposure exhibition.	

* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

Name:
