

Internal photo

The top photograph shows the assembled electronic circuit board. It is a yellow PCB with various components mounted on it. A large black transformer is visible in the center. To the left, there is a potentiometer and several capacitors. A ruler is placed below the board for scale, showing measurements from 26 to 31 cm.

The bottom photograph shows the underside of the circuit board. It is a green PCB with numerous electronic components, including resistors, capacitors, and integrated circuits. Labels such as R1, R2, C1, C2, and U1 are visible on the board. A ruler is placed below the board for scale, showing measurements from 17 to 27 cm.
