Charging

When the battery is low, the Power Indicator light will flash to let you know that the Bluetooth® Keyboard needs to be charged.

1. Connect the Micro USB end (of the included USB cable) to the Micro USB port of the keyboard.
2. Connect the USB end to the USB port of a Wall adapter or Computer.
3. While charging your Keyboard, the Charge Indicator will light up. When the keyboard is fully charged, the lights will automatically go off.

Bluetooth Keyboard Connection Operation Steps

1. Turn the Power Switch to ON. The Power Indicator Light will light up for 4 seconds and then disappear.

2. Press the "Connect" button. The Bluetooth® Connect Indicator will turn on.
3. Select "Bluetooth" in the "Settings" interface of your iPad®/Bluetooth® Device. Enter the Bluetooth Settings Interface, and make sure the Bluetooth is turned on.
4. Your iPad® will discover the keyboard and show "Bluetooth Keyboard" on your screen.
Tap the "Bluetooth Keyboard" words on your screen.
5. A notification box with a passkey should now appear on your iPad® screen.
NOTE: PASSKEY MAY VARY
6. Enter the passkey on your keyboard, and press Enter.
7. Your iPad® screen should show the Keyboard as Connected. Your Keyboard can now be used.

Caution:

1. In order to preserve your Keyboard, we recommend you turn the keyboard off when you are not using it for a long time.

2. We recommend charging the keyboard only when the Power indicator light starts blinking; this means that it is time to recharge the keyboard.

Energy – Saving/Sleep Mode

The keyboard will kick into sleep mode when it is inactive for 15 minutes. The keyboard Power indicator light will go off. To wake up from sleep mode, just press any key and wait for 3 seconds for the keyboard to turn back on.

Troubleshooting

1. Make sure the keyboard is turned on (You can see if the Power Indicator light is on).
2. Make sure the keyboard is in operating distance (within 10 meters).
3. Ensure the battery is charged.
4. Make sure the Bluetooth on your iPad® is turned on in Settings.
5. Press the "Connect" key and check the Bluetooth status.
6. Ensure the Keyboard is paired with your iPad®.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

FCC & IC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
