## Declaration of Similarity

We, Guangdong Welly Electrical Appliances Co., Ltd, declare that we have a product named as Microwave Oven (Model No.: B20PXP66-A70, FCC ID: YI4DWB20PXP66) was tested by Shenzhen Accurate Technology Co., Ltd.

For marketing purpose, we would like to add new models (B20PXP76-A70, B20PXP98-A70) on report and certificate of Job No.

There are some differences between the multiple model and tested model. Details as below:

| Tested Model | Multiple Model               | Differences Items                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------|------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| B20PXP66-A70 | B20PXP76-A70<br>B20PXP98-A70 | <div>1. The multiple models and the main tested model differ in the exterior appearance of the front side, handle style, glass door design, control panel layout, and housing color.</div> <div>2. The difference between B20PXP76-A70 and the main model is the door handle, control panel layout, glass door design and housing color.</div> <div>3. The difference between B20PXP98-A70 and the main test model is the removal of door handles, glass door design and iron sheet decoration.</div> |

Except for the above differences, the rest of these are the same, including the electrical identical: no changes are made to the equipment’s schematics, board layout, component layout, chip sets, resistors and all other electrical aspects.

We guarantee all the information provided above is true, and notice that we’ll bear all the consequences caused by any false information or concealing

Best Regards,
