

N640364– Proposed label change for CMC001 BT module update 2023

Label Material Details

All of our labels are UL 969 (PGDQ2) and C22.2 No. 0.15 (Class 7291) compliant. They are our de facto label standards for all of our tools to meet regulatory safety compliance requirements. These labels are 5 mil Matte Polycarbonate, sub-surface printed, 2 mil acrylic adhesive, with a matte texture.
