Dear Sir or Madam:

The chip nRF52832 installed in our product Garage Door Smart Control (model name: V2 (sensor), FCC ID: YJFV2SEN), which support BLE, ANT+ and 2.4G SRD. But, for the product, it only activates BLE function, the other functions are disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely Yours,

Signature:
