Compliance to FCC US/CAN

- This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s).
- Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device.
- This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
- However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user encouraged to try to correct the interference by one or more of the following measures :
 - . Reorient or relocate the receiving antenna.
 - . Increase the separation between the equipment and receiver.
 - . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - . Consult the dealer or an experienced radio/TV technician for help.
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Conformité à FAC É.-U./CAN

- Cet appareil est conforme à la partie 15 des Règles de la FCC et aux normes RSS d'Industrie Canada exemptées de licence.
- Le fonctionnement est assujéti aux deux conditions suivantes : (1) ce dispositif ne doit pas causer de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris le brouillage pouvant causer le fonctionnement non désiré du dispositif.
- Cet équipement a été testé et jugé conforme aux limites pour un appareil numérique de classe B conformément à la partie 15 de Règles de FAC. Ces limites visent à assurer une protection raisonnable contre le brouillage préjudiciable dans une installation résidentielle. Cet équipement génère, utilise et peut émettre de l'énergie de fréquence radio et, s'il n'est pas installé et utilisé conformément aux instructions, peut causer du brouillage préjudiciable aux communications radio.
- Cependant, rien ne garantit qu'il n'y aura pas d'interférence dans une installation particulière. Si ce matériel cause du brouillage préjudiciable à la réception de la radio ou de la télévision, qui peut être déterminé en l'éteignant et en l'activant, l'utilisateur est encouragé à tenter de corriger le brouillage par une ou plusieurs des mesures suivantes :
 - . Réorienter ou déplacer l'antenne réceptrice.
 - . Accroître la séparation entre l'équipement et le récepteur.
 - . Connecter l'équipement à une sortie sur un circuit différent de celui auquel le récepteur est connecté.
 Consultez le concessionnaire ou une radio expérimentée/Technicien en télévision pour l'aide.
- Tout changement ou toute modification non expressément approuvé par la partie responsable de la conformité pourrait annuler le pouvoir de l'utilisateur d'utiliser cet équipement.

FOR PORTABLE DEVICE USAGE (<20cm from body/SAR needed)

Radiation Exposure Statement

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada etablies pour un environnement non control. Le produit est sur pour un fonctionnement tel que decrit dans ce manuel. La reduction aux expositions RF peut etre augmentee si l'appareil peut etre conserve aussi loin que possible du corps de l'utilisateur ou que le dispositif est regle sur la puissance de sortie la plus faible si une telle fonction est disponible.

Note.

the device was evaluated for body worn SAR condition and it is not a hand-held device.

			Release	2015.10.

1.6. SPECIFICATIONS

ITEM	SPECIFICATION
Radio Frequency Type	ISM 2407MHz ~ 2476MHz
Type	Wireless Intercom Unit
Modulation	FHSS
Voice Codec	16bit/8KHz
Rx Sensitivity	-95dBm
Voice Latency	< 30ms
Antenna	Helical Antenna
Talk Time for Microphone	10hr Typ.
Data Rate	500Kbps
Freq. Bandwidth	500KHz
Battery	Li-ion Battery @3.7V/ TBD 1100mA
Frequency response	50Hz ~ 4KHz
Power Consumption	Avg. 100mA

CAUTION

MCS-2.4G is put in the pouch and attached to the waist.
Also the MCS-2.4G should not be used in other places than the waist.

Identification

FCC ID : YJH-MCS-24G
