Transmitter

INSTRUCTIONS

TRANSMITTER- There are four modes to the transmitter. NOTE: The transmitter can detect motion up to 13 feet (4 meters). Slide the MODE SELECTOR switch (to the left) according to the desired mode.

Mode Selector

Mode 4

Mode 3

Mode 2

Mode 1

Dusk + Dawn

Dusk + Light

Light

OFF

Mode #1: OFF

Mode #2: Light is OFF but motion still activates/triggers the bell sound on the receiver.

Mode #3 (Daytime): Light turns ON and bell chimes when the receiver is triggered by motion.

Mode #4 (Auto Night and Dusk motion): Light turns ON for approximately 20 seconds when there is motion and it is dusk or dark outside; the receiver is triggered whenever there is motion.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Responsible Party:
Hampton Direct, Inc.

• Product Name: CU MOTION

• Model Number: 600606-09918

• FCC ID: YLW-600606-09918

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures.

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
