

Declaration

To Whom It May Concern,

We Queclink Wireless Solutions Co., Ltd. hereby declare that we are only fully responsible for our product of GPS Tracker, Model Name: GV850CNA & GV851CNA, Model: GV850CNA and its additional model: GV851CNA share the same circuit diagram, hardware version, software version, Bluetooth chip, RF module, 4G module, GNSS module and Bluetooth module. The only difference is that GV850CNA includes an additional CAN chip on its PCB.

The CAN chip is used solely for vehicle communication interface and is not connected to or affecting any RF, Bluetooth, or GNSS circuits. The addition of this CAN chip does not alter the power, grounding, or RF layout and has no impact on the EMC or RF performance of the device.

Please contact me if you have any questions or need further information regarding this application.

Best Regards,
