Glamore

Dear Customer

Thank you for choosing Glamore Bluetooth Noise Canceling Headphones! We hope you enjoy the great sound quality and seamless experience they bring to your everyday life.

At Glamore, we are committed to providing you with products that truly enhance your lifestyle, and your feedback plays a vital role in helping us achieve this goal. We'd love to hear about your experience with our headsets!

If you have a moment, we invite you to share your thoughts by leaving a review on Amazon. Attaching photos of you using your headset is a great way to show others how Glamore fits into your life. Your honest feedback not only helps us improve, but also guides other customers to make informed decisions.

We sincerely appreciate your time and support. If you have any questions or need assistance, please feel free to contact our customer service team. We will be happy to assist you!

Kind regards,
The Glamore Team

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
