1.1	Simon Levi	30/10/2025	Compliance label artwork - Contains FCC/ISED ID details added to the label. FCC FRN removed as not required on the label.

Introduction

This document details the labels applied during manufacture of the SDL450.

Compliance Label

The SDL450 reader will have a compliance label that is suitable for all regions the device is intended to be sold in. The compliance label is located in polished area on the rear of the device as indicated below. It is attached with 3M 468MP Double Sided Adhesive.

The details of the compliance label contains the model number and unique serial number of the device. Other information includes –

- **FCC ID:** Unique ID registered with the US FCC
- **IC:** Registration number with ISED Canada
- **Contain FCC ID:** Unique ID of the BLE chip registered with the US FCC
- **Contains ISED ID:** Unique ID of the BLE chip registered with the ISED Canada
- **CE:** The product complies with the relevant EU legislation
- **UKCA:** The product complies with requirements for sale in GB

- **UKNI:** The product complies with requirements for sale in NI
- **RCM:** The product complies with requirements for sale in AUS/NZ

Front Logo Label

The Shearwell Data logo will be affixed to the front of the device above the screen as shown below. It is attached with 3M 468MP Double Sided Adhesive.
