City: Herzliya 4612001
Country: Israel

The ES6502VSF is compliant with periodic operation requirements, listed below:

1. The VSF device does not allow continuous transmitting (such as voice, video and RC).
2. The VSF is not manually operated. Its transmission pattern include up to six re-tries (in case of no response). The patterns of these re-tries are built as follows:
 - a. Up to 8 mSec transmission period
 - b. Minimum of 100 mSec reception period (break/polling)
3. These transmissions occur upon intrusion only – none periodical in concept.
Therefore, no manual activation/deactivation mechanism is necessary.
4. Since there is no periodical behavior except answer to supervision transmissions from no more than 32 peripherals devices, there are no predetermined intervals of any kind included in its algorithms.
