Dismissal Request Letter

The product is targeted at China and Southeast Asian design, but our marketers consider that the product include four band frequency(GSM850/900/1800/1900), and marketers think that our potential customers should require some certificates when bidding, and marketers require get CTA and FCC certificate, so, certification engineer apply the FCC certificate, this is a wrong requirement of marketers.

Our company never do mass production with the FCC ID(YYEDEVA), so we cannot supply the production sample to PHOENIX TESTLAB GmbH.

We hereby declaration that, the product has never been marketed with anywhere with an FCC ID(YYEDEVA).

Now, our company apply for dismiss the FCC certificate. and we will not import the product with the FCC ID(YYEDEVA) to the market.
