

GU3005

Advanced USB Corded Headset

Quick User Guide

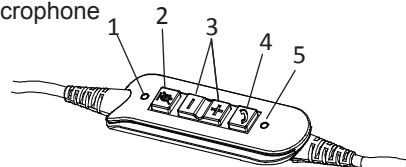

Headset Components

- 1 Receiver
- 2 Adjustable headband
- 3 Busylight indicator
- 4 Flexible microphone boom
- 5 Noise-canceling microphone
- 6 Headset cable
- 7 USB housing

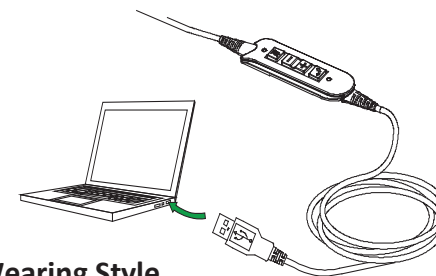

Buttons and Lights

- 1 Display for mute microphone
- 2 Mute microphone
- 3 Volume control

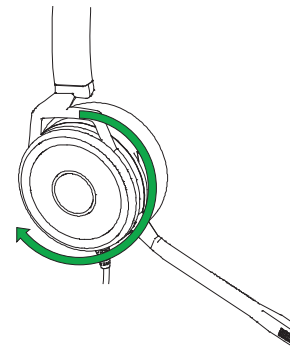

Using Your Headset

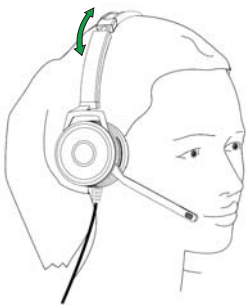

1. Connect your GU3005 Headset to a free USB port on your PC.
2. Make sure that the headset has been selected as the standard audio device in the system control audio settings.
3. Check whether you need to adjust these settings to use a headset.

Left or Right Wearing Style

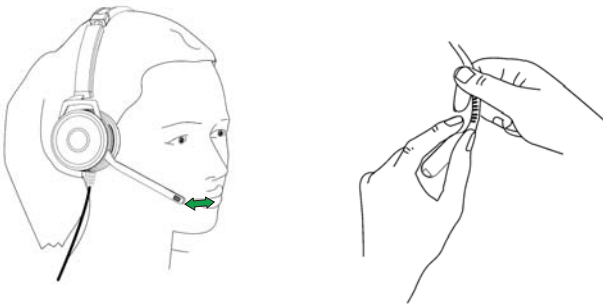

The GU3005 can be worn on the left or right by flipping the microphone to the other side (270° limit). To change ears, rotate the microphone boom over the headband to accommodate the left or right ear.

Adjust the Headband

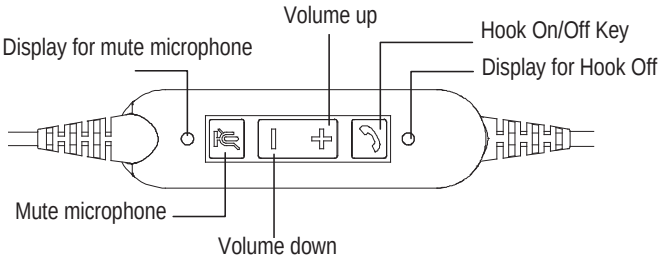

Place the headset receiver to your ears. Adjust the headband until it is comfortable, ideally ensuring that there is virtually no pressure felt on the ears.

Position the Microphone

To avoid low or distorted sound, and to provide clear and crisp telephone calls, the microphone should be positioned within 0.5 inches of your mouth. The microphone boom arm will move in a variety of directions to ensure the best fit.

How to Use

	FUNCTION	ACTION
	Answer/End call	Tap the Answer/End button
	Reject call	Double-tap the button
	Adjust volume	Tap the Volume up or Volume down button
	Mute the microphone	Tap the mute microphone button
	Busylight on/off	When on available, Green light on, tap the Answer/End button, Red light on
	Mute on/off	When mute, Red light on

How to Care for Your Headset

1. Always store the headset with the power off and safely protected.
2. Avoid storage at extreme temperatures (above 25°C/77°F or below -20°C/-4°F). This may adversely affect the headset.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
