Subject: Description of Permissive Change

To whom it may concern,

Pursuant to CFR 2.1043, AirTies Wireless Networks, hereby requests a Class II Permissive Change for the following project:

FCC ID: Z3WAIR4991-41 (DTS, 6ID, 6PP, NII Granted 11/14/2024 ; 6SD Granted–
12/03/2024)

Changes Filed Under This Application:

- 1.) Altimeter Functionality Activation : Software update enables altimeter features, including 3D building detection and barometric pressure sensing. No changes to hardware design or RF characteristics.
- 2.) WiFi Location Enablement : Enables WiFi-based location services to improve horizontal positioning accuracy.
- 3.) AFC System Verification: The Automated Frequency Coordination (AFC) system has been verified and validated for proper operation with the new functionalities, ensuring compliance in 6 GHz Standard Power (6SD) operations.
- 4.) Software activation of Multiple Resource Unit (MRU) functionality in the 5 GHz band and in the 6 GHz band, where the 6 GHz operation is limited to the 6SD equipment class only, for OFDMA operations.
- 5.) Software Security: Remains unchanged from the original application.
- 6.) DFS testing unchanged: Original DFS certification test results remain valid.

Sincerely yours,

Applicant : AirTies Wireless Networks
