Subject; **Modular Transmitter Application**

Company name: Seed Technology Co., Ltd.
FCC ID: Z4T-LORA-E5

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for;-

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID Z4T-LORA-E5 has been examined against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Yes, the EUT has been shielded with RF shielding cover. Please refer to the EUT photos.
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes, all modulation and data inputs are buffered by circuitry on the transmitter chip / microcontroller.
The module must contain power supply regulation on the module.	Yes, power supply regulation is provided by circuitry on the module, including the CPU chip and voltage regulator.
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes, the module uses a unique antenna connector. The EUT meets FCC antenna requirements per Sections 15.203 and 15.204.
The module must demonstrate compliance in a stand-alone configuration.	Yes, the module has been tested in a stand-alone configuration. Please refer to the test setup photos.
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	Yes, the module is labeled with its permanently affixed FCC ID label: FCC ID: Z4T-LORA-E5.
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes, the EUT is fully compliant with all applicable FCC rules. Integration instructions are provided in the user manual.

Seed Technology Co., Ltd.

The module must comply with RF exposure requirements	Yes, this module complies with FCC CFR 47 Part 2.1091 and KDB 447498 D01. Please refer to the RF exposure report.
--	---

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	
2.3	Summarize the specific operational use conditions	
2.4	Limited module procedures	
2.5	Trace antenna designs	
2.6	RF exposure considerations	
2.7	Antennas	
2.8	Label and compliance information	
2.9	Information on test modes and additional testing requirements	
2.10	Additional testing, Part 15 Subpart B disclaimer
