Quick Start Guide

Smart Outdoor Camera

Model:ED03501

Welcome

Thank you for choosing our smart camera. Getting started is easy.

What's Included

Security Camera

Alignment Sticker

Wall Mount Screw Sets

Power Adapter

Quick Start Guide

Product Details

1. Connection Preparation

Bring the camera and phone within 1 to 3 feet (30 to 100 centimeters) of the router.

Note: Make sure smart phone is connected with your wireless router.
Please note the camera is only working under 2.4G Wi-Fi, support 5G Wi-Fi.

2. Get the APP and Account

For the best experience, please download the "Tuya Smart" APP to your smartphone from App Store or Google Play store or you can also scan the QR code below, the APP icon will be displayed after installed successfully.

Launch the app from your smartphone and click the Sign Up button. Follow the on-screen instructions.

3. Insert the Micro SD card

● Pull out the rubber plug at the back of the camera.

● Insert the right SD card to the slot gently and restore the cover for waterproof .

4. Connect the power to the camera

Connect the power to the camera by DC 12V/1A Power Adapter.

5. Set up your camera

● Turn on your phone's Bluetooth and run the "Tuya Smart" APP.

● Insert the camera power supply and patiently wait for the device to start up. The red indicator light flashes quickly, enter the network configuration state.

• If waiting for a long time for a non red light to flash quickly, please press and hold the Reset button for more than 5 seconds to reset the device.

● On the "Tuya Smart" APP page, a "Devices to be added:1" window pops up, and click "Add" to complete the camera addition to the APP.

• If the APP page does not pop up a "Devices to be added:1" window for a long time, please click the "+" button in the upper right corner of the APP page, click "Add Device", and select the camera that the APP automatically searches for to add.

• You can also choose to manually add, select "Camera & Lock", "Smart Camera (Wi-Fi)", follow the instructions of the application, and enter the correct Wi-Fi password; Scan the generated QR

code with a camera at a distance of 15-20 centimeters from the camera; When you hear a "dong dong dong" sound, click "I Heard a Prompt" to proceed to the next step and complete the pairing.

6. Proper Camera Installation And Placement

Appendix: Camera LED Guide

NO.	LED Status	Camera Status
1	Red LED on	System starting up
2	Red LED blinks quickly	Waiting for configuration
3	Blue LED blinks quickly	Network pairing
4	Blue LED on	Camera online
5	Red LED blinks slowly	OTA upgrade

All trademarks are used for reference purposes only. Thanks again for choosing our smart camera! Make life safe in your hands! Boost security mobility in your smartphone!

FCC Statement : 1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference. (2)This device must accept any interference received, including interference that may cause undesired operation.	2. Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.	This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to	radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment	different from that to which the receiver is connected. • Consult the dealer or a experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
