Columbia, MD 21046

We respectfully request to certify the following model name WL1835MODGA under one FCC ID: Z64-WL1835MOD. The description of above model names is described as below:

WL1835MODGA is a RF transceiver module.

Detailed instructions are given in the User Guide provided by Texas Instruments to the integrator. For WL1835MODGA, these instructions give exact dimensions and board layout and provide a method for proving the design of the trace and antenna, and allow the integrator to design the required trace and antenna of integrating the WL1835MODGA on the integrator's host board.

Should you have any questions or comments regarding this matter, please have my best attention.

Sincerely yours,

A handwritten signature in blue ink, appearing to read 'John Gorman', with a long horizontal flourish extending to the right.

John Gorman
