ATTENTION: Federal Communication Commission Equipment Authorization

To whom it may concern,

We would like to submit for Class 2 Permissive Change Certification to FCC: Z64-WL18DBMOD.

The changes were to modify the WiFi antenna trace path as compared to the original modular grant. This was required due to the space available for the module within the design. This change only affects the WiFi antenna design.

Please find in the following application all related documentation to support this Class 2 Permissive Change Certification.

We would appreciate your prompt attention to the submittal.
