FEDERAL COMMUNICATIONS COMMISSIONS

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Subject: Description of Permissive Change

Dear Sir/Madam,

We, Intelibs, Inc. hereby authorize Bay Area Compliance laboratory Corp to act as a laboratory for testing and test report generation for the following project(s):

FCC ID: Z69D01T4JX6, Model: MRU

This project is a Permissive Change II submission for the purpose of AWS-3 band certification that was not included at the last certification test because the scope of project did not require AWS-3 band at the time. AWS-3 band is enabled by software. The MRU hardware has not change except the minor update in the connector types in power connector type from RJ-45 to DIN-F and USB connector from USB-A type to USB-B type.

We affirm that between BACL and Intelibs, Inc., any difference in understanding, including test plan, measurement methods, applicable standards and relevant procedures and processes have been resolved prior to commencement of testing activities.

This authorization is valid until further written notice from the applicant.

Sincerely Yours,

Seyong Park
President
877-213-2640
