Re: FCC ID: Z9O-92053007

To Whom It May Concern:

The following application is submitted on behalf of our client, Ecolab, Inc., for evaluation of their model 92053007 for certification under FCC Parts 15.209, 15.231 and 15.249.

The equipment is to be inserted within a NEXA soap dispenser to monitor and record the dispenser activation by users. The device includes three transceivers operating at 125 kHz, 433.9 MHz and 2405 MHz, respectively. The 433.9 MHz and 2405 MHz radios are capable of transmitting simultaneously and were also evaluated for intermodulation products.

The equipment was tested in full to the aforementioned test requirements and was found to be in compliance.

Sincerely,
