V1.0

Setting Up Your Foscam Security Camera

1 *Getting Started*

■ Package Contents

1 x Camera

1 x E27 Plug Adapter

1 x Quick Setup Guide

■ Safety Instructions

Power Safety
- Always switch off the power before installing, removing, or handling the camera.
- Use only the supplied socket adapter or a properly rated E26/E27 socket.

Handling
- Do not touch the camera with wet hands.
- Avoid dropping or striking the device; it contains delicate electronic components.

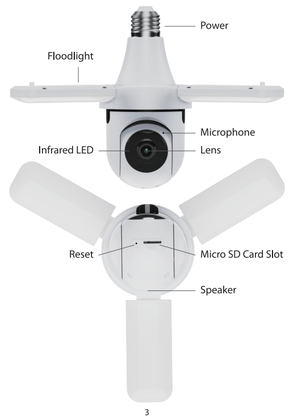
Installation Environment
- Install the device in a stable and secure socket to prevent loosening or falling.
- Intended for indoor dry environments only. Do not install outdoors or in areas exposed to water or high humidity.
- Keep the device away from flammable materials.

Maintenance
- Clean with a dry, soft cloth. Do not use chemicals or water directly on the device.
- Do not attempt to disassemble or repair the camera yourself; contact authorized service if needed.

Children and Pets
- Keep out of reach of children and pets.
- The device is not a toy.

General Warnings
- Do not use the device if it is damaged or shows signs of malfunction.
- Avoid exposing the camera to direct sunlight for long periods.

2 *Physical Description*



3 *Setting Up Your Camera: Connection via the Foscam App*

■ Before You Get Started

Scan the QR code below to download and install the Foscam APP.

GET IT ON Google Play

Available on the App Store

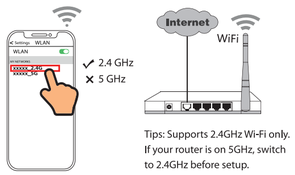
To ensure a smoother video experience on your smart phone, it is recommended that your smart phone meet the following specifications:
- iOS: version 12.1 or higher.
- Android: 6.0 or higher, using a device with a Graphics Processing Unit (GPU).

Note: For the best experience, please update the APP to the latest version!

■ Connect to power

Safety Tip: Always switch off the power before plugging in or removing the socket adapter.

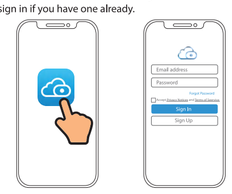
■ Mobile phone connection to the network



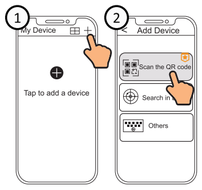
Tips: Supports 2.4GHz Wi-Fi only. If your router is on 5GHz, switch to 2.4GHz before setup.

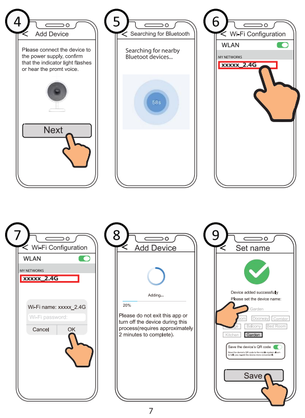
■ APP connection

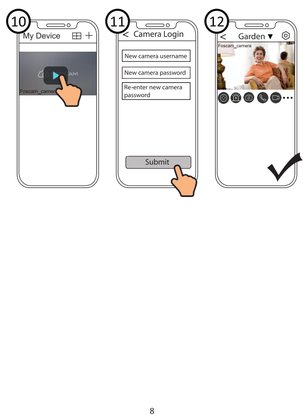
1. Open the Foscam APP and please register a Foscam account, or sign in if you have one already.



2. Follow the steps below:







4 *Install the Camera*

After setup, please unscrew the camera and mount it into a stable E26/E27 lamp socket for long-term safe use.

5 *Product Performance*

WLAN frequency range: 2412 MHz - 2472 MHz
Wireless Standard: IEEE802.11b/g/n (2.4GHz)
Power Supply: AC 110V~220V

6 *Troubleshooting*

■ The camera cannot connect to Wi-Fi.

- Make sure your router is broadcasting a 2.4GHz Wi-Fi network.
- Check that you entered the correct Wi-Fi password.
- Ensure the camera is within range of the Wi-Fi signal.
- The problem persists, reset the camera and try again.

■ Video streaming is slow or laggy.

- Check your Wi-Fi signal strength and move the router closer if possible.
- Ensure other devices are not consuming too much bandwidth.
- Use a stable 2.4GHz network; avoid dual-band interference.

Warning

To assure continued compliance, any changes or modifications not expressly approved by the party.Responsible for compliance could void the user's authority to operate this equipment.

FCC Statement

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
