

# 16 Date & Time

- 1 Enter your correct Date & Time and tap on "Next"

The screenshot shows a mobile application interface for setting the date and time. At the top, there is a blue header with a white checkered icon on the left and a small white icon on the right. Below the header, the title "Date & time" is displayed in white text. The main content area is a white card with the text "Adjust if needed." at the top. Below this, there are three dropdown menus: "Pacific Daylight Time" (with "GMT-07:00" below it), "Date" (with "8/11/16" below it), and "Time" (with "00:01" below it). At the bottom of the screen, there is a grey bar with a left arrow "<" and the text "NEXT >".

# 17 Add another Email

- 1 If desired you can add another email this can be done later in **"Settings"** **"Accounts"**
- 2 Tap "Not Now" then tap on **"Next"**

# 22 Kid's Place Setup

Read and Accept the Kid's Place Terms and Conditions.  
Read the Kid's Place Quick Tips.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body

**Have fun!**

We hope you enjoy playing and learning on your new
