

Label Location

The diagram illustrates the location of a label on the front side of a device. A large black-outlined rectangle represents the device's front side. To its left, a smaller orange-outlined rectangle is labeled "Label Location". A black arrow points from the bottom center of this orange rectangle to the left edge of the large black rectangle, indicating the specific placement of the label.

Label Location

Front side

The Label will be put inside the SIM card compartment, does not put on the SIM tray.
The SIM card compartment will be a permanently attached feature of this device.
The Label is visible to the user as they purchase the product and install the SIM card.
