Subject: Request permission to use Wi-Fi / Bluetooth/ NFC/ GSM/ WCDMA/ LTE test results from model **LM-X210FM, LMX210FM, X210FM** in our applications for model **LM-X210HM, LMX210HM, X210HM ; LM-X210RM, LMX210RM, X210RM**

FCC ID: ZNFX210HM

To whom it may concern:

We request permission to use Wi-Fi / Bluetooth/ NFC/ GSM/ WCDMA/ LTE test results from model **LM-X210FM, LMX210FM, X210FM** (FCC ID: ZNFX210FM) in our applications for model **LM-X210HM, LMX210HM, X210HM ; LM-X210RM, LMX210RM, X210RM** (FCC ID: ZNFX210HM).

ZNFX210FM and ZNFX210HM share the same enclosure, main logic board, display, battery and I/O design. All three models use the same Wi-Fi / Bluetooth/ NFC/ GSM/ WCDMA/ LTE chipset/module and antennas, and operate using the same transmit power levels. Also, all two models run the same iOS software.

The ZNFX210HM only disable LTE FDD 3/8 and activate LTE FDD 17/66 by software, there is not any HW change.

For the above, we performed full SAR test. The other test result coming from the initial model.

Sincerely yours,
