Attention: Application Examiner

RE: Request for Confidentiality

Applicant: Verizon Connect Inc.

FCC ID: ZOQ-AI-111

To Whom It May Concern:

Permanent Confidentiality request is hereby submitted by Verizon Connect Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block Diagrams**
- **Detailed Operational/Functional Description**

Rationale for request for confidentiality:

Verizon Connect dba Verizon has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products but would also disclose successful implementation of unpublished, leading edge technology developed by us. Our Schematics, Block Diagram, and Detailed Operational/Functional Description are designed for internal company use only; along with the use of professional installation these documents are very technical and are not provided to the consumer since the consumer cannot service the device.

Sincerely,

Keith D. Wright II
Manager, Product Development
Verizon Connect
