Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: ZQ6-AP5811SA

Applicant: AMPAK Technology Inc.

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: ZQ6-AP5811SA originally granted on November 7, 2025 (date).

Add an antenna (EAF727A) . The interface for connecting the RF cable is the same as before. However, the antenna gain is smaller than before. Therefore, the changes in power transmission and DFS do not apply. For detailed testing results, please refer to the report.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

(Signature of applicant)
