

W45 Quick Guide

EL

English

1. For more information

- Consult the quick guide to packing lists.
- Open customer service and enjoy following services.
- Consult the manual.
- Get help through various channels such as after-sales, intelligent customer and processing, manual service, question feedback. In addition, you can search status, access network, and service policy.

- Open Settings About CellPhone (see information, closed) for information.
- Get help through various channels such as after-sales, intelligent customer and processing, manual service, question feedback. In addition, you can search status, service network, and service policy.

2. CellPhone appearance

3. Card insertion guidance

- Tap.
- Pay attention to rapid decisions in inserting card and keep the card straight forward.
- Please use the standard Nano-SIM card, insertion of unqualified card may damage the SIM card support.
- We can use only using the card needs in case of obtaining your phone or damaging the cellPhone.
- Please the card needs out of the reach of children to prevent them misreading or being misled.

4. Double card settings

Settings Card management choose 3D SIM card management and select to 3D network.

5. Safety information

- Compatible or unsuitable power supply, charger, and battery may cause fire, explosion, or other hazards.
- Only the accessories included by the manufacturer and matched with this type can

be used. Other types of accessories may cause accidents and violate the warranty and related national regulations. Please contact with authorized service center for replacement accessories.

- Please do not use high volume for long time to protect hearing.
- Please use this device at the temperature from 0°C-35°C, and store it at the temperature at the temperature from 0°C-45°C. The high or low temperature may cause device failure.
- Don't expose the device or battery to high-temperature flame or heat-dissipating equipment, such as smoking, heater, microwave oven, water heater, etc., battery overheating may cause explosion.
- When charging the device, power source should be equipped at flame near state, otherwise it may cause fire.
- Please disconnect the charge with the device, and using it when it is charged will be charged.
- If the device is subject with fire or other damage, do not replace the battery or cause of battery or device damage. The battery can be only replaced by authorized service center.
- This device, battery, and other accessories should be exposed to accordance with local regulations instead of treating them as domestic garbage. Improper battery treatment may cause battery explosion.

6. Privacy protection

- Logging, network and system with unauthorized identity software may cause additional failure or personal information leakage.
- Only the logging and downloading of network official software are recommended.
- Please do not use network information before upgrading as your personal information may be removed.

7. Safety standards

- Content of the harmful substance in this homogeneous material is below the limit of EU REACH standard.
- The harmful substance content in this homogeneous material at least exceeds the limit of EU REACH standard, however there is no other alternative or reason. This means the environmental protection requirements of EU REACH.
- The number in this logo indicates that its service life is 20 years. Some accessories may also have the IPMP logo and the number in the logo group. This number may not indicate all the accessories due to different types, and it should be subject to the actual identification.

Name and Content of harmful substance						
Substance	mg/kg	mg/kg	mg/kg	mg/kg	mg/kg	mg/kg
Phthalate	0	0	0	0	0	0
Lead	0	0	0	0	0	0
Chlorine	0	0	0	0	0	0
Chromium	0	0	0	0	0	0
Cadmium	0	0	0	0	0	0
Boron	0	0	0	0	0	0
Copper	0	0	0	0	0	0

This table is completed according to EU REACH standard.

SAR

Specific Absorption Rate (SAR) information

The Table PC meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through research and through evaluation of scientific studies. The exposure includes a conservative safety margin designed to ensure the safety of all persons regardless of age or health. FCC RF Exposure information and Statement of SAR level of radio PC is 1.0 W/kg averaged over any part of the head. Device type Smartphone (FCC ID: 259946) has also been tested against the SAR limit. This device was tested for typical body worn operation with the back of the phone held 15mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 15mm separation distance between the radio body and the back of the phone. The use of belt clip, holster and other accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or a qualified technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
