FCC ID: ZUENLS2I
IC: 9804A-NLS2I
Model: NLS2A
HVIN: II5
PMN: Bond

Electrical Rating
Model: Bond
Model No.: NLS2A
3.7 V ⎓ 0.1 A : Built-in li-ion rechargeable battery.
5 V ⎓ 0.5 A : When charged using USB Charging device.
Use USB AC adaptor (not included) with power output corresponding to product rating.
Use original provided cable only.

WARNING

Contains button or coin cell battery.

Keep away from children. Hazardous if swallowed.

The battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body.

Seek medical attention immediately if it is suspected that the battery has been swallowed or placed inside any part of the body.

FCC and IC statements:

This device complies with Part 15 of the FCC Rules and Industry Canada license exempt RSS

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil est conforme à la partie 15 des Règles FCC et aux normes RSS exemptes de licence d'Industry Canada. L'utilisation est soumise aux deux conditions suivantes: (1) Cet appareil ne doit pas provoquer d'interférences et (2) cet appareil doit accepter toute interférence, y compris celles qui pourraient provoquer un fonctionnement non souhaité.

Cet appareil numérique de classe B est conforme à la norme canadienne NMB-003.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the

interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

The device is compliance with RF field strength limits, users can obtain Canadian information on RF exposure and compliance.

Le présent appareil est conforme de ce matériel aux conformités ou aux limites d'intensité de champ RF, les utilisateurs peuvent sur l'exposition aux radiofréquences et la conformité d'acquérir les informations correspondante.
