

Solder Board-Component View 3	 A photograph of a rectangular electronic component, likely a module, resting on a blue textured surface. The component has a green printed circuit board (PCB) with various electronic components, including a large black integrated circuit (IC) and several smaller components. It is flanked by two silver-colored metal heat spreaders. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The ruler is oriented vertically in the image, with the 0 mm mark at the top and the 100 mm mark at the bottom.
Solder Board-Component View 4	 A photograph of a small, square electronic component, likely a module, resting on a blue textured surface. The component has a green printed circuit board (PCB) with a single large black integrated circuit (IC) and several smaller components. A thin, light-colored wire is connected to the top of the component. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The ruler is oriented vertically in the image, with the 0 mm mark at the top and the 100 mm mark at the bottom.

Solder Board-Component View 5	 A photograph showing a small, square, yellowish component with a single wire attached, positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 6	 A photograph showing a small, rectangular, green component with a single wire attached, positioned on a blue textured surface. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).

Solder Board-Component View 7	 A photograph showing two yellow rectangular components, likely antennas, connected by wires to a small circuit board. The components are placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Antenna View	 A photograph of a circuit board with three antennas highlighted by red boxes and labels. The labels are: "WIFI/BT Antenna" (top left), "LTE Antenna" (top right), and "GPS Antenna" (bottom left). The antennas are yellow and black, and the circuit board is green.
