| <p><b>Conducted Emission Test Setup</b></p>                |  A photograph showing a conducted emission test setup. On the left, a wooden workbench holds a spectrum analyzer and a small electronic device under test. A power supply unit sits on the floor next to the workbench, connected to the device. To the right is another wooden table. The background is a plain wall with a power outlet.             |
| <p><b>*Radiation Emission Test Setup (Below 30MHz)</b></p> |  A photograph of a radiation emission test setup inside an anechoic chamber. The walls are covered with white, square-shaped electromagnetic interference (EMI) absorbers. In the center, a white test fixture is mounted on a rotating turntable. A metal frame stands in the foreground, and the floor is marked with yellow and black safety tape. |

**Radiation Emission  
Test Setup (30MHz to1GHz)**

**Radiation Emission  
Test Setup (1GHz to18GHz)**

**Radiation Emission  
Test Setup (Above18GHz)**
