IPX7 waterproof is defined as the speaker can be immersed in water up to 1m for up to 30 minutes. **IMPORTANT:** To ensure that the Seiki Tough Speaker is waterproof, please remove all cable connections and tightly close the cap; exposing the speaker to liquids without doing so may result in permanent damage to the speaker. And do not expose speaker to water while charging, as doing so may result in permanent damage to the speaker or power source.

Specifications

- **Transducer:** 2 x 52mm
- **Output power:** 2 x 10W RMS
- **Frequency response:** 65Hz-20kHz
- **Signal-to-noise ratio:** >80dB
- **Battery type:** Lithium-ion (7.2V, 2500mAh, 2pcs 18650 pack)
- **Battery charge time:** 3 hours@5V 2A / 8 hours@5V 1A
- **Music play time:** up to 10 hours (varies by volume level and content)
- **Wireless network:** 802.11b/g/n/ac (2.4/5GHz)
- **Bluetooth version:** 4.2
- **Supported audio formats:** HE-AAC, LC-AAC, MP3, Vorbis, WAV(LPCM), FLAC, Opus
- **Dimensions:** 210 x 108 x 71 mm
- **Weight:** 900g

Input Power: DC5V 2A

FCC:
This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. FCC ID : ZY9-TOUGH

Bluetooth®

L'étanchéité IPX7 est définie par le fait que le haut-parleur peut être immergé dans l'eau d'une minute jusqu'à 30 minutes. **IMPORTANT:** Pour s'assurer que l'enceinte Seiki Tough est étanche, veuillez débrancher toutes les connexions de câble et fermer hermétiquement le bouchon; exposer l'enceinte aux liquides sans le faire pourrait l'endommager de manière permanente. Et n'exposez pas l'enceinte à l'eau pendant la charge, car cela pourrait endommager de façon permanente l'enceinte ou la source d'alimentation.

Caractéristiques techniques

- **Capteur:** 2 x 52mm
- **La puissance de sortie:** 2 x 10W RMS
- **Réponse de fréquence:** 65Hz-20kHz
- **Rapport signal-bruit:** >80dB
- **Type de batterie:** Lithium-ion (7.2V, 2500mAh, paquet de 2 pièces 18650)
- **Durée de charge de la batterie:** 3 heures@5V 2A / 8 heures@5V 1A
- **Durée d'écoute musicale:** jusqu'à 10 heures (varie selon le volume et le contenu)
- **Réseau sans fil:** 802.11b/g/n/ca (2,4/5GHz)
- **Version Bluetooth:** 4.2

- **Dimensions:** 210 x 108 x 71 mm
- **Poids:** 900g

Puissance d'alimentation: DC5V 2A

IC Caution:
RSS-Gen Issue 5 April 2018* & CNR-Gen 5e April 2018:

• English:
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) This device may not cause interference, and
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

• French:
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
