## WF15S Wireless Home Automation Control Device Interchangeable Face Cover On/Off Switch

### ◆ SPECIFICATIONS

|                            |                                          |
|----------------------------|------------------------------------------|
| Voltage.....               | 120VAC, 60Hz                             |
| Incandescent.....          | 1000W                                    |
| Electronic Ballast.....    | 5A                                       |
| Standard Ballast.....      | 1200VA                                   |
| Resistive.....             | 1800W(15A)                               |
| Motor.....                 | 1/2 HP                                   |
| Operating Temperature..... | 32°F~104°F(0°C~40°C)                     |
| Wire Strip Length.....     | 16mm(5/8 in.)                            |
| Supply Connection.....     | 14 AWG wires, suitable for at least 75°C |
| Screw Torque.....          | 20 lbf-in                                |
| Protocol.....              | IEEE 802.11b/g/n                         |
| Wireless Type.....         | 2.4GHz                                   |

### ◆ FEATURES

- Perfect Replacement for regular wall switch, 120VAC, 15Amp
- Manual and Remote ON/OFF control of any connected lighting and other electrical electrical load
- You can Turns your devices on or off at any time or anywhere have Internet using the free Tuya App on your smartphone
- Interchangeable Color Face Plate

### ◆ DESCRIPTION

The WF15S ON/OFF Switch is a perfect wireless manual and remote on/off control replacement of regular wall switch, controlling incandescent, LED, fluorescent, ballast and so on.

## WARNINGS AND CAUTIONS

Be sure to read the instruction carefully before installation, and the manufacturer will not be responsible for any product damage that does not follow the instruction

1. Wet hands are strictly prohibited.
2. Must work strictly according to the rated load.
3. Do not continue to work after self-disassembly of any nature and damage of external forces.

### ◆ INSTALLATION

#### Single Switch Wiring Schematic

#### Wiring Diagram:

1. WARNING : To avoid fire, shock, or death. High Voltage - Turn off power at circuit breaker or fuse and test that power is off before wiring.
2. Remove wall plate and existing switch mounting screws.
3. Carefully remove the existing switch from the switch box.
4. Disconnect the wiring from the existing switch.
5. Connect this WF15S switch as shown in the wiring diagram: Black lead to hot wire, white lead to neutral wire, red lead to load wire, green lead to ground wire.
6. Check connections to be sure they are tight and no bare conductors are exposed.
7. Insert the WF15S switch into the standard outlet box carefully.
8. Make sure the WF15S switch to the box using the supplied screws.
9. Attach the wall plate.
10. Restore power at the circuit breaker and test the system.

### ◆ OPERATIONS

### Manual Control

The switch paddle on the WF15S allows the user to:

- 1, Turn ON/OFF the connected lighting.
  - 1, To turn the connected lighting ON: Tap the top of the switch paddle.
  - 2, To turn the connected lighting OFF: Tap the bottom of the switch paddle.

**Please Note:** After a power failure, the WF15S on/off switch returns to OFF state.

### Tuya Smart App Control

1. Download Tuya Smart app from the App Store or Google Play.

OR scan QR code

2. Connect mobile device to your 2.4GHz WIFI network. Please note this Smart outlet can only be connected to 2.4GHz network.

3. Launch Tuya and follow the in-app instructions to connect the WIFI outlet to your network.

- a. Login the Tuya
- b. Click the button “+”
- c. Select the "Electrical outlet"

- d. Click the bottom button
- e. Enter your Wifi password
- f. Finished

# INSTALLATION INSTRUCTIONS

4. When the device is finished add, this WIFI Outlet can be opened, closed, countdown and timing.

**Please Note:**

- 1. In the process of adding device, you must correctly select the router's WIFI device name and fill in the correct WIFI password, otherwise the device will not be able to add successfully.
- 2. This WIFI Outlet can only be paired with one phone device. If you want multiple phones to control the WIFI Outlet, click the "profile" then chose the " Device Sharing".

3. When the device fail to add in the App, please try to enter the AP mode. Before enter the AP mode please press the top or bottom button 5 times continuously, then press and hold at the sixth for 5 seconds then release, the LED indicator in green and slowly blinks.

◆ **OPERATION AND LED INDICATION**

- Quick Blinking Green:** Connecting to the network.
- Slow Blinking Green:** AP mode.
- Green bright after 2 seconds off:** Connected to the network.
- Soild Green:** Network normaly or in standby mode.
- Solid Blue:** The WIFI Switch is switched on.
- Off:** The WIFI Switch is switched off.

◆ **FCC COMPLIANCE STATEMENT**

**Federal Communication Commission Interference Statement**

The equipment has been tested and found to comply with the limits for a class B B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment uses, generates and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC Caution:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.

**FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

RF Exposure: A distance of 20 cm shall be maintained between the antenna and users, and the transmitter module may not be co-located with any other transmitter or antenna.

**Non-modification Statement:**

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

◆ **WARRANTY INFORMATION**

Our company warranties its products to be free of defects in materials and workman -ship for a period of two (2) years. There are no obligations or liabilities on the part of our company for consequential damages arising out of or in connection with the use or performance of this product or other indirect damages with respect to loss of property, revenue, or profit, or cost of removal, installation or reinstallation.

| Wireless Type.....         | 2.4GHz                                   |

### ◆ FEATURES

- Perfect Replacement for regular wall switch, 120VAC, 15Amp
- Manual and Remote ON/OFF control of any connected lighting and other electrical electrical load
- Can be used for signal pole or 3- Way (Multi-location) with Auxiliary Switch (sold separately)
- You can Turns your devices on or off at any time or anywhere have Internet using the free Tuya App on your smartphone
- Interchangeable Color Face Plate

### ◆ DESCRIPTION

The WF15S-3W ON/OFF Switch is a perfect wireless manual and remote on/off control replacement of regular wall switch, controlling incandescent, LED, fluorescent, ballast and so on. This WF15S-3W ON/OFF Switch works with 3-Way Auxiliary Switch that reducing energy consumption, enhancing the value of technology of your home, condominiums and apartment.

## WARNINGS AND CAUTIONS

Be sure to read the instruction carefully before installation, and the manufacturer will not be responsible for any product damage that does not follow the instruction

1. Wet hands are strictly prohibited.
2. Must work strictly according to the rated load.
3. Do not continue to work after self-disassembly of any nature and damage of external forces.

### ◆ INSTALLATION

#### Single Switch Wiring Schematic

#### 3-Way Wiring Schematic using one WF15S-3W and one 3-way Auxiliary Switch

Wiring Method 1

Wiring Method 2

Wiring Method 3

Traveler works with 3-way Auxiliary Switch control( sold separately).

#### Wiring Diagram:

1. WARNING : To avoid fire, shock, or death. High Voltage - Turn off power at circuit breaker or fuse and test that power is off before wiring.
2. Remove wall plate and existing switch mounting screws.
3. Carefully remove the existing switch from the switch box.
4. Disconnect the wiring from the existing switch.
5. Connect this WF15S-3W switch as shown in the wiring diagram: Black lead to hot wire, white lead to neutral wire, red lead to load wire, green lead to ground wire.
6. Check connections to be sure they are tight and no bare conductors are exposed.
7. Insert the WF15S-3W switch into the standard outlet box carefully.
8. Make sure the WF15S-3W switch to the box using the supplied screws.
9. Attach the wall plate.
10. Restore power at the circuit breaker and test the system.

### ◆ OPERATIONS

#### Manual Control

The switch paddle on the WF15S-3W allows the user to:

- 1, Turn ON/OFF the connected lighting.
- 1, To turn the connected lighting ON: Tap the top of the switch paddle.
- 2, To turn the connected lighting OFF: Tap the bottom of the switch paddle.

**Please Note:** After a power failure, the WF15S-3W on/off switch returns to OFF state.

#### Tuya Smart App Control

1. Download Tuya Smart app from the App Store or Google Play.

OR scan  
QR code

2. Connect mobile device to your 2.4GHz WIFI network. Please note this Smart outlet can only be connected to 2.4GHz network.

# INSTALLATION INSTRUCTIONS

3. Launch Tuya and follow the in-app instructions to connect the WIFI outlet to your network.
- a. Login the Tuya      b. Click the button “+”
- c. Select the "Electrical outlet"

- d. Click the bottom button      e. Enter your Wifi password      f. Finished

4. When the device is finished add, this WIFI Outlet can be opened, closed, countdown and timing.

## Please Note:

1. In the process of adding device, you must correctly select the router's WIFI device name and fill in the correct WIFI password, otherwise the device will not be able to add successfully.
2. This WIFI Outlet can only be paired with one phone device. If you want multiple phones to control the WIFI Outlet, click the "profile" then chose the " Device Sharing".

3. When the device fail to add in the App, please try to enter the AP mode. Before enter the AP mode please press the top or bottom button 5 times continuously, then press and hold at the sixth for 5 seconds then release, the LED indicator in green and slowly blinks.

## ◆ OPERATION AND LED INDICATION

- Quick Blinking Green:** Connecting to the network.
- Slow Blinking Green:** AP mode.
- Green bright after 2 seconds off:** Connected to the network.
- Soild Green:** Network normally or in standby mode.
- Solid Blue:** The WIFI Switch is switched on.
- Off:** The WIFI Switch is switched off.

## ◆ FCC COMPLIANCE STATEMENT

### Federal Communication Commission Interference Statement

The equipment has been tested and found to comply with the limits for a class B B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment uses, generates and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC Caution:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause interference, and 2. This device must accept any interference received, including interference that may cause undesired operation.

### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

RF Exposure: A distance of 20 cm shall be maintained between the antenna and users, and the transmitter module may not be co-located with any other transmitter or antenna.

### Non-modification Statement:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

## ◆ WARRANTY INFORMATION

Our company warranties its products to be free of defects in materials and workman-ship for a period of two (2) years. There are no obligations or liabilities on the part of our company for consequential damages arising out of or in connection with the use or performance of this product or other indirect damages with respect to loss of property, revenue, or profit, or cost of removal, installation or reinstallation.
