

Letter for the Permissive Change

(Date : 01 sep 2016)

To Whom It May Concern:

This letter is providing the additional information for the Permissive Change application. The model 761505 is based on the previously original certified model 761505. The following component has been changed:

U4, U5, U6 are used to increase the amplification performance of the audio input to the amplifier. L2, L3, L4, L5, L6 and L7 are used to increase the frequency response of the audio output. Also modified the layout for adding a shielding for better RF performance

All design including electronic, electrical and construction remain the same except the above mentioned. The above specified change is not intended for maximum power.

Sincerely,

Camino International Limited
