

The image shows a small, rectangular black electronic module resting on a bright blue background. Two black rulers are positioned diagonally across the frame to provide a sense of scale; one ruler is marked in inches (0-6) and the other in centimeters (0-10). The module features a white rectangular label with printed text and logos. The text on the label includes "HPS-9038-AE", "FABRICATED IN MEXICO", "Model Code 0084", and various regulatory markings such as CE, FCC, and RoHS. There are also several circular holes and a larger rectangular port visible on the top surface of the device.
