USER MANUAL

Warning: Do not allow this product to come in contact with water. The remote control requires 2 "AA" batteries (not included).

REMOTE CONTROL BATTERY INSTALLATION

1. On the back side of the remote control unit, remove the battery compartment screw using a small Phillips screwdriver.
2. Insert the batteries with the correct polarity.
3. Replace the battery compartment cover and make sure it is inserted properly or the Tank "OFF/ON" switch is in the ON position and needs to be turned off for charging.

CHARGING THE TANK

1. Connect the USB charging cord to the USB charging port on the back of the tank and plug it into a standard USB charging socket to charge the tank's Li-Ion battery. The red LED light will flash rapidly while the tank is charging.
2. Connect the USB charging cord to the USB charging port on the back of the tank and plug it into a standard USB charging socket. The red LED light will flash rapidly while the tank is charging.
3. When charging is complete, the red LED light will stop flashing and will stay on as long as the tank is connected to the USB. You may unplug the charging cable when the tank is fully charged.
4. To use the tank, press the "Gun" button and the tank will make a machine gun firing sound.
5. To use the tank, press the "Gun" button and the tank will make a machine gun firing sound.

BATTING OTHER LASER FORCE TANKS

1. In order to play the game, you will need at least 3 or more additional Laser Force tanks.
2. Switch the ON/OFF switch located on the front of the remote control/tank to the ON position.
3. Before starting the game, set the "Gun" button to the UNLOADED position.
4. To charge the tank, press the "Gun" button and the tank will make a machine gun firing sound.
5. To charge the tank, press the "Gun" button and the tank will make a machine gun firing sound.

BATTERY WARNINGS

1. Do not disassemble the battery or use any other battery other than the one supplied with the product.
2. Do not use the tank if the batteries are not properly installed or if the batteries are not the correct type.
3. Do not use the tank if the batteries are not properly installed or if the batteries are not the correct type.
4. Do not use the tank if the batteries are not properly installed or if the batteries are not the correct type.
5. Do not use the tank if the batteries are not properly installed or if the batteries are not the correct type.

CARE AND MAINTENANCE

1. Treat your Laser Force RC Assault Tank as a delicate instrument and handle it with care.
2. Keep the tank away from water, as this can damage the unit beyond repair.
3. Keep the tank away from water, as this can damage the unit beyond repair.
4. Keep the tank away from water, as this can damage the unit beyond repair.
5. Keep the tank away from water, as this can damage the unit beyond repair.

To store the tank, turn off the engine and unplug the battery. When not in use, store the tank in a cool, dry place.

To care for the tank, always clean it with a dry cloth after each use. Do not use any harsh chemicals or solvents.

To clean the tank, use a soft, dry cloth to wipe it down. Do not use any water or cleaning solutions.

To store the tank, turn off the engine and unplug the battery. When not in use, store the tank in a cool, dry place.
